

# Brand New

## Next

Yo, let me start off by first apologizing  
Girl, you think I take you for granted  
But um

I'm here to take it backCan we pull back a minute and make believe that?

I don't know you and you don't know me  
Darling, let's pretend

This old school love is brand newCan we explore the places I've already been?  
Just tell me where and I'll kiss it again  
Darling, let's pretend

This old school love is brand newI know I shouldn't have to ask  
But it seems that I've relaxed  
And I'm getting the feelings that

It's time I take it back[Incomprehensible] night escapes  
In the car callin' out my name

You being scared when your friend was late

Then being cool when it finally came, those were the daysCan we pull back a minute and make believe that?  
I don't know you and you don't know me  
Darling, let's pretend

This old school love is brand newCan we explore the places I've already been?  
Just tell me where and I'll kiss it again  
Darling, let's pretend

This old school love is brand newWay back when hickies were the thing  
You wore bloomers, not that sexy G-string  
And gettin' blue balls was a daily thing

But it was alright, with meTo when that very first time went down  
How you moaned when I went down  
You were the one, I had no doubt

We need to get that back right now 'cause those were the daysCan we pull back a minute and make believe that?  
I don't know you and you don't know me  
Darling, let's pretend

This old school love is brand newCan we explore the places I've already been?  
Just tell me where and I'll kiss it again  
Darling, let's pretend

This old school love is brand newWe're still here  
'Cause we conquered every feeling  
The fire burns inside like yester year

My baby since back in the dayWe knew it would be us  
Holding on to that first crush  
Had to say today, is what it was

So let's keep on sending, it's only beginningCan we pull back a minute and make believe that?

I don't know you and you don't know me

Darling, let's pretend

This old school love is brand newCan we explore the places I've already been?

Just tell me where and I'll kiss it again

Darling, let's pretend

This old school love is brand newCan we pull back a minute and make believe that?

I don't know you and you don't know me

Darling, let's pretend

This old school love is brand newCan we explore the places I've already been?

Just tell me where and I'll kiss it again

Darling, let's pretend

This old school love is brand newBack, like Cadillacs and hubcaps

Back, like leavin' letters in your nap sack

Back, like Jellies and pro keds

Back to girl, when we first metBack, to when Mike had the glove on

Back, to when our love was so strong

Back, to the days I know you miss

I'll give back, I promise thisCan we pull back a minute and make believe that?

I don't know you and you don't know me

Darling, let's pretend

This old school love is brand newCan we explore the places I've already been?

Just tell me where and I'll kiss it again

Darling, let's pretend

This old school love is brand newLet me explore the places I've already been?

Tell me where and I'll kiss it again

Darling, let's pretend again, let's pretend

Baby, I wanna just love you, I wanna love you

I wanna love you, [Incomprehensible] you, [Incomprehensible] you

That's all I wanna do, baby

All I wanna do, love
