

God Wrote

Project Pitchfork

A dead world,
pollution,
heat waves,
poison in the air,
the flood comes,
war everywhere,
god wrote the fullstop.
Running to you,
as fast as I can,
I try to reach you - to save you,
to be with you the last time,
the last time before we die,
I try to reach you,
as fast as I can,
running to you - to save you,
to be with you the last time,
the last time before we die.
it's too late,
to solve the problem,
deserts grow,
children die,
cities have been grown,
far too long,
this planet finally revolts,
against humanity,
the flood comes,
god wrote the fullstop.
god wrote the fullstop.
