

# LET YOU BE RIGHT

Meghan Trainor

[Verse 1]

Love me, love me  
Don't forget you love me  
When I break things, make things  
A little bit uncomfy[Pre-Chorus]  
Baby, don't hate me  
You probably think I'm crazy  
And it's stupid and foolish  
The way we've been behavin'  
So, don't keep draggin' this on and on  
When you know that you're wrong, you're wrong

[Chorus]

I don't wanna fight tonight  
I'ma let you be right  
I don't wanna fight tonight  
I'ma let you be right (let you be right)  
We can make up if you just kiss me at the next traffic light  
I don't wanna fight tonight  
I'ma let you be right (let you be right)  
Oh, let you be right, let you be right  
Oh, let you be right, let you be right (woo!)[Verse 2]

Trust me, trust me

I need you to trust me  
'Cause I say shit I don't mean  
Words for me ain't easy

[Pre-Chorus]

Oh, baby, don't hate me  
You probably think I'm crazy  
And it's stupid and foolish  
The way we've been behavin'  
So, don't keep draggin' this on and on  
When you know that you're wrong, you're wrong[Chorus]  
I don't wanna fight tonight  
I'ma let you be right  
I don't wanna fight tonight  
I'ma let you be right (let you be right)  
We can make up if you just kiss me at the next traffic light  
I don't wanna fight tonight  
I'ma let you be right (let you be right)

Oh, let you be right, let you be right  
Oh, let you be right, let you be right (woo!)[Bridge]  
Love me, love me  
Don't forget you love me  
Hey, yeah  
Love me, love me  
Don't forget you love me  
Hey, yeah  
Oh, hey[Chorus]  
I don't wanna fight tonight, bae  
I'ma let you be right  
I don't wanna fight tonight  
I'ma let you be right (let you be right)  
We can make up if you just kiss me at the next traffic light  
I don't wanna fight tonight  
I'ma let you be right (let you be right)  
I don't wanna fight tonight  
I'ma let you be right (let you be right)  
Oh, let you be right, let you be right  
I don't wanna fight tonight  
I'ma let you be right (let you be right)  
Oh, let you be right, let you be right (woo!)  
We can make up if you just kiss me at the next traffic light  
I don't wanna fight tonight  
I'ma let you be right (let you be right)
