Machine Gun (1997 Remastered Version)

Saxon

Move in to the front underhanded fire
Hear the bullets flying millions every hour
Tracers in the night shooting across the sky
For God's sake cover me I don't wanna die[Chorus]
Machine gun
Machine gun
Machine gun
Machine gunOver the top into the wire
Running like a madman into the fire
No-mans land, fighting for your life
Fighting hand to hand forced to use your knife[Chorus]Come the wheels of terror crushing all before
Chews you to the bone to hear the monsters roar
With the clash of iron the battles never won
For the forgotten soldier it's only just begun[Chorus]It's gonna shoot you downMove in to the front underhanded fire
Hear the bullets flying millions every hour
Tracers in the night shooting across the sky
For God's sake cover me I don't wanna die[Chorus]Come the wheels of terror crushing all before
Chews you to the bone to hear the monsters roar
With the clash of iron the battles never won
For the forgotten soldier it's only just begun[Chorus]Gonna shoot you down
