

From the Dead

Faith No More

Homecoming parade
Welcome home my friend
Travelled long, sleeping on this forest floor
Open heaven's door
Coming 'round the bend
Welcome home my friend
Traveled long, you're weeping like a canyon gorge
Hear your lion roar
I can see you shining like a morning sun
Hear your lion roar
Hear your lion roar
I can see the parade
Welcome home my friend
We reside in miseries in present times
Watch your watch unwind
We will travel in histories on the street lines
The sigils and the signs
Watch a watch unwind
Back from the dead
I can see you there
(Welcome home my friend)
