My Love Was There

The Junction

My love was there for me never lied to me never left me by the road
I never thought I'd be wound so tight with my head filled up in doubt
My friends I try to be an easy breeze but sometimes I get down

But I know... My love was there for me,
never lied to me,
never left me by the road

In a time of doubt, its easy to feel sorry for yourself
Yeah, I know... My love was there for me
never lied to me never left me by the road

and if you hear my song, sing along
sing along

and if you hear my song, sing along
sing along

Yeah I know there's a love for you
just as sure as I have seen it for myself
Yeah I know... So I hope this song gets to you
when you're feeling down and out
Cause I know...

My friend there's a love for you
never lie to you
never leave you by the road
And if you hear my song,
sing along

Just one look my baby
Just one look my love
x3

And if you hear my song - sing along
Sing along
