It's Over

Cuff the Duke

Long ago time was still just a friend of mine
It's over, it's over, it's over my head
I'm a slave to time it no longer waits for me
It's over, it's over, it's over my head
Over my head
Over my head
It's over my head
It's over my head
It's over, it's over, it's over my friend
