

It's Over

Cuff the Duke

Long ago time was still just a friend of mine

It's over, it's over, it's over my head

I'm a slave to time it no longer waits for me

It's over, it's over, it's over my head

Over my head

Over my head

It's over my head

It's over my head

It's over, it's over, it's over my friend
