

The Flow

Darude

Rock your body, feel the flow
Mind machine is flashing, the green light to go
Beat box drummer and a microphone
That's all we need to make the show flow, soRock your body, feel the flow
Mind machine is flashing, the green light to go
Beat box drummer and a microphone
That's all we need to make the show flow, soRock your body, feel the flow
Mind machine is flashing, the green light to go
Beat box drummer and a microphone
That's all we need to make the show flow, soRock your body, feel the flow
Mind machine is flashing, the green light to go
Beat box drummer and a microphone
That's all we need to make the show flow, soThat's all we need to make the show flow
Beat box drummer and a microphone
That's all we need to make the show flow, soRock your body, feel the flow
Mind machine is flashing, the green light to go
Beat box drummer and a microphone
That's all we need to make the show flow, soRock your body, feel the flow
Mind machine is flashing, the green light to go
Beat box drummer and a microphone
That's all we need to make the show flow, soRock your body, feel the flow
Mind machine is flashing, the green light to go
Beat box drummer and a microphone
That's all we need to make the show flow, soRock your body, feel the flow
Mind machine is flashing, the green light to go
Beat box drummer and a microphone
That's all we need to make the show flow, soGreen light to go, green light to go, green light to go
That's all we need to make the show flow
