

# Autumn

## Barbra Streisand

Autumn, it feels like autumn  
Although the breeze is still, I feel the chill of autumn  
Oh, yes, it's autumn, it's always autumn  
However green the hill, to me it still is autumn I can feel the frost now that makes  
My spring and summer dream seem lost now  
Why can't the autumn haze recall the days  
Of warm summer laughter?  
That faded soon after in the autumn He left in autumn  
And though another season's here  
I feel the emptiness of autumn all the year
