Verse 1

Yo I woke up feelin good as can
I stretched and breathed
Over my body see I felt this major relief
Usually Iâ€™m feelin stressed from my head to my feet
Overwhelmed by these bills and payin the heat
But today Iâ€™m feelin free and complete
Even with these trials and tribulations that
The devils pitchin at me
Through the rain I still the lord be smiling at me
As I headed downstairs to watch my face in the sink
Made my way to the kitchen got me something to eat
My girl jumped out stopped me started trippin on me
Telling me the rent late and now so is she
She got to go to work plus I got the baby to feed
She wasnâ€™t lyin now he cryin guess he ready to eat
Stressin out just seems petty to me
I told my girl I got the rent gave her a kiss right dead on the cheek
Now we all smiling. Why? This little ninja is smiling at me
You see

Chorus

I felt so good when I woke up I got up
And washed my drama away
See Iâ€™m knee deep in my share of my problems
But I donâ€™t got em today

I felt so good when I woke up I got up

And washed my drama away
See Iâ€™m knee deep in my share of my problems
But I donâ€™t got em today

Verse 2

Now donâ€™t you just hate when you run into a chick that you used to date
And have to pretend that you have something new to say
Little things like this donâ€™t seem hard to do today
I called Carlito on the phone
Whatâ€™s up with you today? And he replied
Yo Sefro you comin through today?
Iâ€™m on my way on the train my thoughts got threw away
How many stops you got left
Iâ€™m just a few away
This homeless dude came through the train
Askin for food and change
I gave the cat a dollar instead of telling him to move away
I know your tight with your money
But Iâ€™m feelin brand new today
Matter fact heres another buck have two today
I could just imagine what he had to go through today
Los I got some bugged out things to tell you today
I let this little ninja step all up on my shoe today
And didnâ€™t knock him out because it was a true mistake

Chorus

I felt so good when I woke up I got up
And washed my drama away
See Iâ€™m knee deep in my share of my problems
But I donâ€™t got em today

I felt so good when I woke up I got up
And washed my drama away
See Iâ€™m knee deep in my share of my problems
But I donâ€™t got em today

Verse 3

Yo my girl got a hot breakfast waiting for me
I brush my teeth before I step to the kitchen to eat
Over the sink wash my face the scent 'whelming on me
Turkey, sausage, eggs, grits, no pork or no beef
Look in the mirror like yes sir what a relief
Lovin my frame from my scars to the chips in my teeth
I eat and hit the street its like ninety degrees
My ninja standin on the corner got the green with no seeds

Grab my lighter and my Dutch , put it up in the breeze
Earatik reppin, Tim's steppin, cop's lookin at me
Sweatin' what's up in my pocket search me intricately
What a relief days like today ain't no trippin to me
Pick up my keys count my cash and continue to chief
Honey dips in front of me far as the eye can see
But I'm picky as can be so my eyes retreat
I'm feelin lucky, why? cause aint no one as live as me
You see

Chorus

I felt so good when I woke up I got up
And washed my drama away
See I'm knee deep in my share of my problems
But I don't got em today

I felt so good when I woke up I got up
And washed my drama away
See I'm knee deep in my share of my problems
But I don't got em today
