

Shine Like It Does

Inxs

This is the power since time began
Every single hour that we have known
And from each moment, all that is left
Sleep of the innocent, just one desire Shine like it does into every heart
Shine like it does and if you're looking
Well, you will find it This is the story since time began
There will come a day when we will know Shine like it does into every heart
Shine like it does and if you're looking
You will find it Shine like it does into every heart
Shine like it does and if you're looking
You will find it You will find it, you will find it
You will find it, you will find it
