## Yo Gotti

[Hook]Go girl, a go girl  
Top notch ?  
She go go live  
She go go silly yo  
I tell her bring it back  
She go go get it  
She a go girl, a go girl  
All night putting on a show girl  
She go go live  
She go go silly yo  
I tell her bring it back  
She go go get it  
[Yo Gotti]I got this girl thats so addictive  
She call and say she miss me  
I tell her I'ma visit next time I'm in her city  
I turn ya World to Gotti world, shawty bring ya ticket  
Jimmy Choo and Red Bottoms, shawty we can kick it  
I take her on trips, her boyfriend be trippin'  
Takes off on the menu, tryna hear it  
Tattoos and piercings, Gucci shoes  
Kiss just as fresh as she be, she serious  
All I do is ball and all she f-ck is winners  
To take her to the mall she don't wanna go to dinner  
She a go girl and I'm tryna get wit her  
Have her looking right I had to follow her on Twitter  
She a go girl?  
[Hook][Wiz Khalifa]  
Go go, keep on going  
I'll be somewhere throwing money, blowing on that potent  
Money in my bank account, pockets hella swollen  
And a model girlfriend so for them cameras we be posing  
We just go go, anywhere we wanna  
Got a weed connect from Tennessee to California  
Twenty grand in Paris, blowing on that Mary  
Yo' bitch on my Johnson cause I'm ballin' like I'm Larry  
And I play my part. I'm out here with the bosses  
And she know this from the start, get 30K to show  
That mean we both be going hard  
Don't smoke it, roll the weed up

If she broke she'll get her g's up  
If she slow she up to speed cause she a  
[Hood][Big Sean]Okay now woah there, keep going throwin that big booty thong  
She wear her heart on her sleeve  
Now she just Comme des Garcon'ing  
I wake up and show you what this Cockle doodle do in the morning  
I swear that pussy so good good, I wish I could clone it  
Okay, go girl, go girl  
My new bitch, ya old girl  
She buss it open for me like a show girl  
Call me king than tell me that its your world  
Her body Jamaica but the vagina is Asian  
I swear thats hour glass shaped and that just remind me time wasting  
Okay, fuck around I might taste it  
And if I throw it back at her than she probably gon chase it  
Cause she a go girl?  
[Hook]
