

Spinning for Spoonie

[Neil Halstead](#)

Butterfly flap your wings
Cause summer in the night time sings
A firefly burning bright
For you, for you tonight Maybe when the rockets fly
Across the great blue sky
Maybe when the first night fall
Your lover, your lover may call Butterfly flap your wings
Summer in the night time sings
A firefly burning bright
For you, for you tonight Maybe when the rockets fly
Across the great blue sky
Maybe when the first night fall
Your lover, your lover may call
