

Fight of a Suburban Couple

Smile Empty Soul

You're so into this news thing
On the TV set
I don't know why you care
When, 'Wheel of Fortune' is on next We could watch yuppie families
Playing for great prizes
We could forget about this fucked up world
While TV blinds us You're so into your game shows
On the TV set
When we could watch the world
Explode tonight on Channel Ten We could watch fucked up families
As they fuck each other
We could forget about the good things
In this world together
