

Come Around

Joe

Whenever he's sleepin' on you
Come around, come around
I'm ready to sneak up on you
Come around, come around When he doesn't give good lovin'
Come around, come around
Come over, I'll keep it comin'
Come around, come around Why can't he see, how sexy you are?
He must be crazy, not to think you a star
How can he let you sleep alone in your bed?
He should be taking care of business instead And if you need keys then you know where they're at
Just let yourself in for some wine and relax
I'll do all the things that your man won't do for you
I know what you need, girl you don't have to ask
You can creep with me Whenever he's sleepin' on you
Come around, come around
I'm ready to sneak up on you
Come around, come around When he doesn't give good lovin'
Come around, come around
Come over, I'll keep it comin'
Come around, come around You say that he don't know you at all
Hanging out all night and don't even call
Making promises that he's gonna change
But does the same thing again and again And if you need the keys then you know where they're at
Just let yourself in for some wine and relax
I'll do all the things that your man won't do for you
I know what you need, girl you don't have to ask
And you can swing with me, oh baby Whenever he's sleepin' on you
Come around, come around
I'm ready to sneak up on you
Come around, come around When he doesn't give good lovin'
Come around, come around
Come over, I'll keep it comin'
Come around, come around Whenever he's sleepin' on you
Come around, come around
I'm ready to sneak up on you
Come around, come around When he doesn't give good lovin'
Come around, come around
Come over, I'll keep it comin'
Come around, come around If he don't treat you like a lady, come around

If he don't buy you nice things baby, come around
And if he can't ever get it up, come around
You can take me there with one touch, come around Whenever he's sleepin' on you
Come around, come around
I'm ready to sneak up on you
Come around, come around When he doesn't give good lovin'
Come around, come around
Come over, I'll keep it comin'
Come around, come around Whenever he's sleepin' on you
Come around, come around
I'm ready to sneak up on you
Come around, come around When he doesn't give good lovin'
Come around, come around
Come over, I'll keep it comin'
Come around, come around Whenever he's sleepin' on you
Come around, come around
I'm ready to sneak up on you
Come around, come around When he doesn't give good lovin'
Come around, come around
