

# Until My Change Comes

## Commissioned

It's been a long time coming but a change is gonna come  
When the dark clouds pass away, feel the warmness of the sun  
I know that You love me, oh yeah, I know that You care  
I can't wait to be by Your side in the middle of the air, until my  
Until my change comes here's what I'll do  
Renew my strength, keep holding on, I'll wait on You  
Until my change comes here's what I'll do  
Renew my strength, keep holding on, I'll wait on You  
It ain't gonna be easy but I'll be strong  
Some say if You really cared it wouldn't take so long, yeah  
For You to return for me if with You is where I ought to be  
But I'm gonna believe until that day, I will until  
Until my change comes here's what I'll do  
Renew my strength, keep holding on, I'll wait on You  
Until my change comes here's what I'll do  
Renew my strength, keep holding on, I'll wait on You  
Gotta wait, gotta wait on You, yeah, that's what I'm  
gonna do  
I'm gonna stand still, I just wanna be in Your will  
Just like David and Goliath, I gotta encourage my soul, yeah  
Said I'm gonna stand still until  
Until my change comes here's what I'll do  
Renew my strength, keep holding on, I'll wait on You  
Until my change comes here's what I'll do  
Renew my strength, keep holding on, I'll wait on You  
Until my change comes here's what I'll do  
Renew my strength, keep holding on, I'll wait on You  
So I'm gonna wait on You, trust in, believe on, until  
Renew my strength, keep holding on, I'll wait on You  
I'm gonna lean on You, depend on You, cling to Him  
Renew my strength, keep holding on, I'll wait on You  
I'm gonna wait, wait on You, trust in You, believe on  
Renew my strength, keep holding on, I'll wait on You  
Lean on You, depend on You, cling to Him  
Renew my strength, keep holding on, I'll wait on You  
Until my change comes here's what I'll do  
Renew my strength, keep holding on, I'll wait on You  
Until my change comes here's what I'll do  
Renew my strength, keep holding on, I'll wait on You
