

# Mad Generation (feat. T.I.)

Victoria Monet

You know the one  
There's never been a soul like you  
Just do what you want  
They good with everything you choose Can you save me from a mad generation?  
Smokin' good and whole in the wall  
No waitin' cuz we ain't got patient  
Some day we wanna do it all When the light falls and the night goes  
We are hidin' all what we do in the dark  
And the peddies  
With the secrets  
A new day begins, and we back do it all No voice to appear to the massive  
Just quit as the silent night  
Get into what you want and you passin'  
No one will ever know your lies Can you save me from a mad generation?  
Smokin' good and whole in the wall  
No waitin' cuz we ain't got patient  
Some day we wanna do it all When the light falls and the night goes  
We are hidin' all what we do in the dark  
And the peddies  
With the secrets  
A new day begins, and we back do it all Lights out in the bend in that part  
One gun big enough to make a car flip  
Ain't about a profits  
Ain't no minas goal, minas  
We'll be diggin' for the gold  
Leave that pedish behind us  
Lookin' for a sugar inas on the corner in the trill  
Bags in the front, caught birds in the back  
They say that life it ain't right  
Cuz we hustle til the day light  
And when my baby cry for the hunger pain  
I'll be keep it up all night  
My bitch never thought that,  
Had drugs and the vibe  
Let's get the caught and the vibe  
And they dive it, yeah they divin'  
They say that generation low  
And my generation bad  
Someday will dive bout my fam

I demand my respect When the light falls and the night goes  
We are hidin' all what we do in the dark  
And the peddies  
With the secrets  
A new day begins, and we back do it all
