

Wish You Never Met Me

Papa Roach

This is the moment that I've feared the most
Helplessly watching as we turn to ghosts
Is it over ?
Tell me if it's over This is the hardest thing I've ever done
Hopelessly waiting as you turn and run
Is it over ?
Is it really over ? I promised you that I would change
Then I broke it in a million ways
I alone take the blame
While you take everything... Why can't we start this over ?
What have we done to us ?
You say that you need closure
Are you just giving up on us ? I refuse to fade away
As you're trying to forget me
Take my heart and walk away
Like you wish you never met me Now that I know that you're not on my side
What good is love if it's always denied
Is it over ?
Is it really over ? I swore to God that I could change
But I let you down a million ways
I alone take the blame
While you take everything... Why can't we start this over ?
What have we done to us ?
You say that you need closure
Are you just giving up on us ? I refuse to fade away
As you're trying to forget me
Take my heart and walk away
Like you wish you never met me Like you wish you never met me
Like you wish you never met me
Like you wish you never met me
Do you wish you never met me ? Why can't we start this over ?
What have we done to us ?
You say that you need closure
Are you just giving up ? ! Why can't we start this over ?
What have we done to us ?
You say that you need closure
Are you just giving up on us ? I refuse to fade away
As you're trying to forget me
Take my heart and walk away

Like you wish you never met me I refuse to fade away
As you're trying to forget me
Take my heart and walk away
Like you wish you never met me Like you wish you never met me
Like you wish you never met me
Like you wish you never met me
Do you wish you never met me?
