

# Sway Your Head

## We Shot the Moon

Sway your head, move your feet, wake yourself from the sleep  
If there's a day, there's a way you can get yourself there  
Golden smile, you got style that they can't take away  
Scream and shout, get it out before it swallows you  
No surprise in these times how it really gets through  
All the walks and the thoughts but can you break through? You're alive, so alive  
Now c'mon You gotta pull yourself back together  
Give it one more shot, it's now or never  
With the new day calling for you  
You gotta believe, woah Build a plan, yes you can, you got nothing to lose  
Look around, up and down, what are you gonna choose?  
Can you see the sunrise that came up for you? You're alive, so alive  
Now c'mon You gotta pull yourself back together  
Give it one more shot, it's now or never  
With the new day calling for you  
You gotta believe, woah You gotta pull yourself back in the water  
Take in one deep breath, you're getting closer  
After all you've talked and seen  
You gotta believe, woah I think it's coming back, I think it's coming back  
I think it's coming back to me  
I think it's coming back, I think it's coming back  
I think it's coming back to me Now I, I feel I'm getting better  
Now I, my world is getting better You gotta pull yourself back together  
Give it one more shot, it's now or never  
With the new day calling for you  
You gotta believe, woah You gotta pull yourself back in the water  
Take in one deep breath, you're getting closer  
After all you've talked and seen  
You gotta believe, woah
