

# Hypure

## Static-X

Extra long for gliding and sliding  
Skin compatibility, long lasting  
Pure original formula, personal  
Never dries out your skin Ready put it in  
Baby, baby, baby, baby, baby  
Never gets sticky  
See directions for use Original body  
Conditioning party  
Twist that cap off  
Put it to use Hypure  
Super concentrated  
Faster, never terminate it Spread it all around to enhance your pleasure  
It only takes a few drops and it never stops  
Pure original formula, personal  
Never dries out your skin Ready put it in  
Take me, take me, take me, take me, take me  
Take it how you want  
I'm ready for you Original body  
Conditioning party  
Let's get it started and  
Put it to use Hypure  
Super concentrated  
Faster, never terminate it Hypure  
Super concentrated  
Faster, never terminate it Penetrate it, harder, faster  
Spread it around  
Twisting, positioning  
Push it in further Never ever  
Suspect synthetic  
Glistening under the glow  
Make me hyper Hypure  
Super concentrated  
Faster, never terminate it Hypure  
Super concentrated  
Faster, never terminate it  
Penetrate it
