

Body

Chilli

When the bass hits your body
Move your body to the beat
When the bass hits your body
Move your body to the beat
When the bass hits your body
Move your body to the beat
When the bass hits your body
Move your body to the beat
It's your body (it's your body)
It's your body (it's your body body)
Anything you want
Anything you need
You gotta work for it
Anything you see
If you wanna be
You gotta put in work for it
Don't give up
You gotta believe
Gotta work work work for it
Don't give up
You gotta believe
Gotta work work work for it
Give it just a little more
Give it just a little more
Give it just a little
Anything you want
Anything you need
You gotta work for it
Anything you see
If you wanna be
You gotta put in work for it
Don't give up
You gotta believe
Gotta work work work for it

Don't give up
You gotta believe
Gotta work work work for it Move your body
Move your body now
Move your body
Move your body Anything you want
Anything you need
You gotta work for it
Anything you see
If you wanna be
You gotta put in work for it
Don't give up
You gotta believe
Gotta work work work for it
Don't give up
You gotta believe
Gotta work work work for it Give it just a little more
Give it just a little more
Give it just a little more
Give it just a little Anything you want
Anything you need
You gotta work for it
Anything you see
If you wanna be
You gotta put in work for it
Don't give up
You gotta believe
Gotta work work work for it
Don't give up
You gotta believe
Gotta work work work for it Move your body
Move your body now
Move your body
Move your body Move your body
Move your body now
Move your body
Move your body
