

Take Me As I Am

Tonic

I never knew my Father, I never knew his pain
Or that an empty home life would break him down again
So when I feel like running I have to look inside
I want to find the answers, I want to break my line
Fear falls down like rain
And it makes me whole again
Fear falls like rain
Take me as I am, I'm not broken
Pieces of my life are not tokens
I want to let you know that I'm still learning
How to love again and stop hurting
I want to roll my darkness into a million suns
I need to find forgiveness when all the pain is done
I wanna hear I'm sorry, I wanna let you go
I have to find my own life, I wanna learn to grow
Fear falls down like rain
And it makes me whole again
Fear falls like rain
Take me as I am, I'm not broken
Pieces of my life are not tokens
I want to let you know that I'm still learning
How to love again and stop hurting, oh yeah
And it makes me whole again
Take me as I am, I'm not broken
The pieces of my life are not tokens
I want to let you know that I'm still learning
How to love again and stop hurting, and stop hurting
