

# Did You See Her?

## Nu Flavor

Oh, oh, oh, oh See that girl, everyone wants her Can't stop thinkin' about her If I could just have her I want her  
She walks down the hallway Everyone stops to stare I watch her everyday But she pretends like I'm not there  
The one to say "Baby please" Can you see that I'm gonna be Did you see her walkin' by When I'm feelin'  
down, just seein' her gets me high And somethin' gets me deep inside Just to see her walkin' by Could it be?  
Did you see her look at me? Maybe soon I'll be the one she'll see She's the most popular girl Cause she moves  
my world But I see more She's amazing, oh Lord That I'm just so crazy in love with you Can you see that I  
don't know what to do? Did you see her walkin' by When I'm feelin' down, just seein' her gets me high Just to  
see her walkin' by Did you see her look at me? And somethin' gets me deep inside Maybe soon I'll be the one  
she'll see What can I do just to be with you Could it be? What can I say to have you look my way What can I be  
just to have you here with me So I can fall asleep at night I just want you to be mine Did you see her walkin' by  
When I'm feelin' down, just seein' her gets me high And somethin' gets me deep inside Did you see her look at  
me? Just to see her walkin' by Could it be? Maybe soon I'll be the one she'll see
