

Lost & Blown Away

[Novastar](#)

I've taken everybody's,
taken everybody's advice
you know how it goes
I've been trying hard to make a brand new start
but what it does to you,
no one knows
but it showshow can you say
that it's so hard you drag me
into your thing as you fade away
why can't you see
that I can't relate to
anything that's lost and blown away
silenceI'm telling you our time has come to end
and I do feel a sense of loneliness
yes I do
but time after time
you refuse to see there's nothing more
than a silver bless
silver blesshow can you say
that it's so hard you drag me
into your thing as you fade away
why can't you see
that I can't relate to
anything that's lost and blown away
silenceI've taken everybody's,
taken everybody's advice
you know how it goes
