

Windows Of The World

The Pretenders

Just like a rose
Without a thorn
Defenses fade
We've come undone
Desire
The answer for harmony
This moment together
We can see
Deep into the night
We're looking through the windows of the world
(Underneath the sky)
We're opening the windows of the world
We stay afloat
On the sea of storms
The tides of time
Carry us along
Beginning
And ending
With what we know
Surrender
Emotions
Here we go
Deep into the night
We're looking through the windows of the world
(Underneath the sky)
We're opening the windows of the world
Beginning
And ending
With what we know
Surrender
Emotions
Here we go
Here we go
Deep into the night
We're looking through the windows of the world
(Underneath the sky)
We're opening the windows of the world
We're looking through the windows of the world
We're opening the windows of the world
Windows of the world
Windows of the world
