Sex Fire Religion

Edguy

Hey there pal won't you gimme an ear
Gimme your everything and keep your fear
Godly voices telling me what to do
They're out for palpitation
Then leave you to your desperation
Take you and tie you run over you
There's no resistance to the cry of the sirens
Calling you - a razor edge affair
You close your eyes boy
She tears your lids in two
Never even try to miss she's there
And then when the time pieces shatter
I am baptized by the attar
Right into heavens door
Sex Fire Religion
Visionary position
Angel in your temple of pleasure
Sex Fire Religion
I been granted admission
Angel in your temple of love
Wicked wild ma'am with a bag full of tricks
And up shit creek there I'm stuck in a fix
Strikes like a bolt from the blue
The siren baits with lubrication
Then she steals your habitation
Rides you and ties you and runs you
Maybe she don't know love
But she knows how to make it
Divinity is running down her skin
In the city of evil we touch the sky
Let the ride to paradise begin
And when the time pieces shatter
I am baptized by the attar
Kick down into the pie
Sex Fire Religion
Visionary position
Angel in your temple of pleasure
Sex Fire Religion
I been granted admission

Angel in your temple of love
Sex Fire Religion
Visionary position
Angel in your temple of pleasure
Sex Fire Religion
I been granted admission
Angel in your temple of love
