Quintessence

Quincy Jones And His Orchestra

The demon skin is covered
In fine mist
Opened his hand in my hand
Holding my eyes to the future
Hovering above myself
Letting loose the guided
Punching these holes in my head
The space time paradigm
Omnipresence
Primal instincts
Let it go, let it go, let it go
Let it go, let it go
Calling reason, finding you
These wild hearts run
Even deeper, burning through
These wild hearts run
Let it go, let it go, let it go
Let it go, let it go
Letting me free the quintessence
In fine mist
Opened his hand in center

Holding my eyes to the future
Hovering above myself
Letting loose the guided
Punching these holes in my head
Losing my skin to the landslide
Omnipresence
Primal instinct
Let it go, let it go, let it go
Let it go, let it go
Calling reason, finding you
These wild hearts run
Even deeper, burning through
These wild hearts run
Let it go, let it go, let it go
Let it go, let it go
Shield failure
Speed farewell

Shield failure
Speed farewell
