

# Seven

## Play

I got a letter, story of frustration  
I got a number, counting complications  
It's got me running from my situation  
Blame it on my own imagination(Roll the dice)  
And tell it like it is  
(Count it twice)  
And call it what it isLuck, 1, 2, 3 if you just let it be  
4, 5, 6 it's an experience  
8, 9, 10 do it all again  
While we're waiting on a lucky number 7I wouldn't talk if it's not a solution  
A second thought is only an illusion  
And talking trash just adds to the pollution  
Blaming it on all of my confusion(Must be strong)  
To tell it like it is  
(Can't be wrong)  
To tell it what it isLuck 1, 2, 3 if you just let it be  
4, 5, 6 it's an experience  
8, 9, 10 do it all again  
While we're waiting on a lucky number 7  
While we're waiting on a lucky number 7I need a 7 or maybe 11  
It's some kind of heaven for the lucky in  
I need a 7 or maybe 11  
It's some kind of heaven for the lucky inLuck 1, 2, 3 my advice  
4, 5, 6 roll the dice  
8, 9, 10 take a chance  
While we're waiting on a lucky number 7Could be luck  
(If you just let it be)  
Don't you run  
(It's an experience)  
Be yourself, tell it like it is  
(Luck, luck,luck, luck, luck, luck, luck )Luck 1, 2, 3 if you just let it be  
4, 5, 6 it's an experience  
8, 9, 10 do it all again  
While we're waiting on a lucky number 71, 2, 3 if you just let it be  
4, 5, 6 it's an experience  
8, 9, 10 do it all again  
While we're waiting on a lucky number 7  
While we're waiting on a lucky number 7  
(Luck)
