

# Justice

Ian Barras

One man say, restore the peace by any means  
Shoot first, then question your enemies  
Look how the people been suffrin'  
Before now, this a for even more  
As they try to mediate between the rich and the poor  
Them never used to visit such community  
Them never insure them sa-fe-ty  
Can you stop the love of the people  
Where you know their every cry  
Where they all have justice.

Justice

Will the people want an end to brutality  
Tell dem all they should respect humanity  
When you're out there it's nothing but insanity  
You massacre your own and that's the reality

Oh Buju Banton, me don't know partiality...I  
Iya Iya Iya, I...

Justice

Now look at the way they treat the people  
People of the island can't take this here hassle  
Everyday to suffer, is Jah-mon, it is a struggle  
Look at how the people them work hard and juggle  
Some a dem a hustle, and some a dem a love  
Some a dem a brag, and nuff a dem a buss  
Listen to the rude boy while I toss  
The people they want justice

Justice

Verse one
