Turn To Stone

Walsh,Joe

Welcome to sun down
Welcome to the dark
Could it be that evil has heroes?
Bring everybody down, celebration
Passing of the light
Giving up your spirit to the night
You'll turn to stone
Just for ever
You'll turn to stone
Here comes a fire
We'll burn it to the ground
Inside the page lies the power
We've turned it all around, celebration
Words have control
To take away your heart and then your soul
You'll turn to stone
Just for ever
You'll turn to stone, turn to stone
Oh, pray for a miracle
But the wishes in the well have all gone dry
There's no way for a miracle
It's not the way you live, it's how you'll die
Welcome to sun down
Welcome to the dark
Could it be that the evil has heroes?
We've turned it all around, celebration
Words have control
To take away your heart and then your soul
You'll turn to stone
Just for ever
You'll turn to stone
You'll turn to stone
Concerning the inhabitants of otherworld
There are many similarities to be found
Parallel to our own society
The individual must be absorbed
The collective must be as one
