M'lady

Sly & The Family Stone

She deserves the finer things in life
The best clothes, best cars, best love, best wines
And if you can give her that, you should give her lovin' back
To somebody who's gonna treat her like a queen
Show her what love really means
And if you know it's really love you can never get enough of love
I will stress to the death for m'lady
Be a freak never cheat on m'lady
Go to work go to church with m'lady
Anything, everything I do for m'lady
I will dress to impress for m'lady
I will cry, I would die for m'lady
If you don't even try for your lady
If you don't just say g'bye to your lady, I love m'lady
Don't be afraid to tell the world about her
'Cause she's your rock and you can't do without her
And can't nobody come between what you and your woman mean
'Cause she's your strength when you're weak
Hope when it's clean, faith when you need it
And when you're feeling it's not to you it's really love
You can never get enough, never too much, never too much
I will stress to the death for m'lady
Be a freak never cheat on m'lady
Go to work go to church with m'lady
Anything, everything I do for m'lady
I will dress to impress for m'lady
I will cry, I would die for m'lady
If you don't even try for your lady
If you don't just say g'bye to your lady, I love m'lady
I love m'lady, I cherish m'lady
If you love your lady treat her like a lady
And the fellas say m'lady, m'lady, she's m'lady
And the fellas say m'lady, m'lady, she's m'lady
And the fellas say my baby, sweet baby, my baby
And the fellas say my baby, m'lady, m'lady
I will stress to the death for m'lady
Be a freak never cheat on m'lady
Go to work go to church with m'lady
Anything, everything I do for m'lady

I will dress to impress for m'lady
I will cry, I would die for m'lady
If you don't even try for your lady
If you don't just say g'bye to your lady, I love m'lady
I love m'lady, I cherish m'lady
If you love your lady treat her like a lady
And the fellas say m'lady, m'lady, she's m'lady
And the fellas say m'lady, m'lady, she's m'lady
And the fellas say my baby, sweet baby, my baby
And the fellas say my baby, m'lady, m'lady
