Forevermore

Gov't Mule

I can feel the rain fall down
Like tears upon my shoulders
I can feel the hard wind blow
Blow on for ever moreI can feel the gods look down
Some laugh while some are crying
I can feel the wasted tears
Cry on for ever moreCan't you see
My whole world is nothing without you
Can't you see
My whole world is nothing without youOnce in a lullaby
You brought me joy and laughter
Now that its all used up
I cry for ever moreOnce in a lullaby
A paper sun was shining
Now that it's all burned up
Darkness for ever moreCan't you see
My whole world is nothing without you
Can't you see
My whole world is nothing without youWhere will I run to when I need a place to hide
Far away from New York City
Who will I turn to now that our love is dyingCan't you see
My whole world is nothing without you
Can't you see
My whole world is nothing without youI can feel the rain fall down
Like tears upon my shoulders
I can't feel my love
She's gone forevermore
