

# Xanadu

## The Baby Boomers

Xanadu

Xanadu

Love isn't easy when it's too far away

You need a lot of faith and dedication

I don't have that problem, I see you everyday

An hour filled with hope and inspiration

Xanadu, I've been waiting my whole life

For a chance to meet a girl just like you

And I believe it's gonna be you and me

If you will get to know me too

Xanadu, I've been waiting my whole life

For a chance to meet a girl just like you

And I believe it's gonna be you and me

If you will get to know me too

I love all about you, but you don't know who I am

Sure is a complicated situation

So what if I'm dreaming, I'm dreaming I am your man

And we wake up in a real life conversation

Xanadu, I've been waiting my whole life

For a chance to meet a girl just like you

And I believe it's gonna be you and me

If you will get to know me too

Xanadu, I've been waiting my whole life

For a chance to meet a girl just like you

And I believe it's gonna be you and me

If you will get to know me too

I fell in love with a girl on TV

She captivates me on reality TV

She's looking at me but she cannot see me

I hope she will be more than a fantasy

Xanadu, I've been waiting my whole life

For a chance to meet a girl just like you

And I believe it's gonna be you and me

If you will get to know me too

Xanadu, I've been waiting my whole life

For a chance to meet a girl just like you

And I believe it's gonna be you and me

If you will get to know me too

I fell in love with a girl on TV

She captivates me on reality TV
