

Goodbye Goebbels

Fat White Family

Right now
Now that forever
Has taken its best shot
And the whole wide world is raging
The music of Munich
Fades into the ashes
Barely alone now Goodbye Goebbels
Sometimes there's no solving
Problems and pain
So one more refrain
Before our names
Are buried in shame Chew up the old world
And spit out the new
Here's to the fourth Reich
I bid you a Jew Silence
Silence is easy
The walls they are shaking
Your courage was sacred
And you lit up,
You lit up my conscience I think we're alone now
We're barely alone now
Goodbye Goebbels Sometimes there's no answer
Questions and games
So one more refrain
Against the grain
Beyond all pain Bury the old world
And dig out the new
Here's to the fourth Reich
I bid you adieu
