

Do What You Want

2 In a Room

Now you know what a 2 in a Room can do, baby

Do it

Do it

Do it

Right now (All night long)

Right now (Do it, do it)

Bring it all down to that funky sound

That's makin' you (Move your body)

Party and harty, get in and step out

Your body is drenchin' sweat (Word up)

Five bets, I got you wet

With my combination of house and rhyme

I'm in effect and I've yet to win

This one back and now do mine

"Do what you want" is the name of the game

So hit the floor and grab your dame

Dosy-do your partner

And let her know that you want her

Just grab her over and tell her something

By the way that you're moving, dig?

You get the picture, they wanna fix you

And take you back to the crib

So just do what you wanna do (Right now)

Do what you wanna do (All night long)

Do what you wanna do (Right now)

Just do what you want (Do it, do it)

Do what you want, I ain't get on a

Mission of motion all night long

And move that body, don't you quit

And move along to that hip-house hit

I won't dictate you, I won't debate you

All I want is to motivate you
Do what you wanna do
And shake that big fat booty until it breaks

I'm-a take you out of cold
And now you gonna feel the heat
Come into my hip-hip house
And I'm-a make you move your feet
