Evening Star

Judas Priest

Aaa aaa aaa aaa
Aaa aaa aaa aaaI travelled to a distant shore
I felt I had to go
An inner voice had called me there
But why I did not know?
I saw the evening star rise up
Shining out to sea
And now I understand at last what it means
What it all meansEvening star, I can see the lights
Evening star, guiding me so brightI used to tempt fate
I couldn't see straight
I faltered through my younger days
Never knowing where I was going
Then something helped me penetrate the hazeEvening star, I can see the lights
Evening star, guiding me so brightNow I am stronger
The haze no longer
Ruin in my future destiny
Such inspirations and new sensations
Pull up these string ties chasing meEvening star, I can see the lights
Evening star, guiding me so brightI'm home once more, much better for
The things that I have found
Much wiser now, so simple how
Each time, I turn around
I see the evening star rise up
Shining all on me
Now I understand at last what it means
What it all meansEvening star, I can see the lights
Evening star, guiding me so bright
(Guiding me)Evening star, I can see the lights
Evening star, guiding me so brightEvening star, I can see the lights
Evening star, guiding me so brightEvening star, I can see the lights
Evening star, guiding me so bright
