Sing

Slowdive

Sing where the other boys can watch you dance
Here come my man
Sing where the other boys can watch you dance
Here in my mind
Watch you fall away
I know
Sing where the other boys can watch you dance
See you cover death
I know
We're fine, you are blind
Caught it from behind
Feel you fall away
I know he's here to stay
Sing where the other boys can watch you dance
Sing where the other boys can watch you dance
[...]
Sing where the other boys can watch you dance
What a world I [...]
Sing where the other boys can watch you dance
I thought I [...]
Everything I say
[...]
Sing where the other boys can watch you dance
[...]
[...]
And I know that he's gone away
