Sing

Slowdive

Sing where the other boys can watch you dance

Here come my man

Sing where the other boys can watch you dance

Here in my mind

Watch you fall away

I know

Sing where the other boys can watch you dance

See you cover death

I know

We're fine, you are blind

Caught it from behind

Feel you fall away

I know he's here to stay

Sing where the other boys can watch you dance

Sing where the other boys can watch you dance

[...]

Sing where the other boys can watch you dance

What a world I [...]

Sing where the other boys can watch you dance

I thought I [...]

Everything I say

[...]

Sing where the other boys can watch you dance

[...]

[...]

And I know that he's gone away
