Triple Black

Down to Earth Approach

Be home
We're pulling for the weak tonight answer the echo
We're pulling for the weak tonight
Be home
Answer the echo that drives your friends crazy
Can you still hear it, or is it dead tonight?
Did the magic find you
>From the day we left you?
Bringing you home
Look at my reflection
And just take the flight
That's bringing you home
Go crazy
And make yourself whole
Know where you are
And get yourself frozen
Go home for a sure thing
You'll know where you are
Sing for yourself, in a melody for everyone
So be home
We're pulling for the weak tonight
Answer the echo
We're pulling for the weak tonight
Be home
Answer the echo that drives your friends crazy
Can you still hear it, or is it dead tonight
When it's said and done?
