Living for the First Time

Teddy Geiger

Echos move
Across the bedpost
Make it past
The windows
Fade into the night
My fears clouding up
My head for years
Drift away
Like paper boats
Into the seaCall
The brothers Wright
Take me on a flight
Living
For the first time
In my life
Give me rain
And I'll make
It rightA cold wind blows
Across my face
My heart
Begins to race
And eyes
Are open wideBurning
Through the sky
Across
The great divide
Living
For the first time
In my life
Give me rain
And I'll make
It right
Living
For the first time
In my life
I'll take
My first breath
Tonight
