Call of the Wild

[Gitche Manitou](#)

Call of the wild
Call of the wild
Call of the wild
People tell me this
And people that me that
Ooh, everybody thinks they know
Where it's at
Life is getting harder
And it's tearing me down
It's time to pack my bags
I'm gonna leave this town
The call of the wild is calling me
The wilderness is beckoning me
The call of the wild is calling me
Where nature moves over the free
Call of the wild
Call of the wild
Call of the wild
People quibbling' this
And people quibbling that
The ones with the money
Just keep on getting that
There ain't no solitude
The quiets getting loud
Any place you want to go
Gotta fight right through the crowd
The call of the wild is calling me
The wilderness is beckoning me
The call of the wild is calling me
Where nature moves over the free
The earth and the sky and the sea
The numbers of signs you can see
The call of the wild is calling me
The call of the wild is calling me
The wilderness is beckoning me
The call of the wild is calling me
The call of the wild is calling me
The wilderness is beckoning me
The call of the wild is calling me

Where nature moves over the free
The earth and the sky and the sea
The numbers of signs you can see
The call of the wild is calling me
The call of the wild is calling me
The wilderness is beckoning me
The call of the wild is calling me
