Miniature Birds

Grand Archives

Westward course of empire's got its wheels turning faster and on to disaster so long, long, such a long way to go.

Riding up on a high horse looking at all the soldiers and the holy rollers so long, long, such a long way to go.

> Did it take that long. Did it take that long.

I could be reasonable, I could fight, I could have at least been a little bit wiser so long, long, such a long way go.

You know when those miniature birds sing an ignorant song the choir's putting us on trial so long, long, such a long way to go.

Did it take that long, Did it take that long?

Riding up on high. Riding up on high.

Did it take that long? Did it take that long?
