

County Line

Sugarland

There's a place I like to go
Cherry bombs and cherry wine
Just past the Texaco
Down on the county line

Beer cans and cemeteries
Spanish moss on a welcome sign
Catch a buzz, we all get scary
Down on the county line

[Chorus]
Out where your troubles can't find you
Out where you leave them all behind
Out where the moons shines sweetly
Won't you meet me
Down on the county line?

Kettle corn and 4-H fairs
Pink slips and white wall tires
Bet you twenty I'll beat you there
Down on the county line

First love and football wars
French kiss and battle prize
Further then I've been before
Down on the county line

[Chorus]
All the churchyards and white-wash fences
All the widows and teenage brides
They're all searching for redemption
They're all looking for a sign

Down on the county line
(Down on the county line)
Down on the county line
(Down on the county line)
Down on the county line

The best things in life are free
It's been right here all the time
It's everything that's home to me
Down on the county line

[Chorus]

Out where your troubles can't find ya
Out where we have a real good time
Out where the moon shines sweetly
Won't you meet me
Down on the county line?
(Down on the county line)
Down on the county line
(Down on the county line)
Down on the county line
