

# Over My Head

[sarah ault](#)

Im packing my bag oh and the wind over my head dont know if I can do this anymore  
Surrounded by the lifeboats but im drownin here instead  
Something dosnt fell quit like before

And I want to just beleave you when you tell me that were safe now  
But I can see it when I look in your eyes  
And we tryed it dont deny it  
You were looking for a way out  
and I know that you are not on my side

And I dont wanna see you crying when I finally let you go cuz iv given what you wanted you will thank me  
down the road you couldnt take what you had when you had it and now your gonna know so I dont wanna see  
you crying when I finally let you gooo

Ohh

Ooh

Said you couldn't help it that you want what you cant have, thats not the way i see it anymore  
just two broken hearts connected and you know thats a fact and nither one of us will win the war

And I want to just beleave you when you tell me that were safe now  
But I can see it when I look in your eyes  
And we tryed it dont deny it  
You were looking for a way out  
and we know that you are not on my side

And I dont wanna see you crying when I finally let you go cuz iv given what you wanted you will thank me  
down the road you couldnt take what you had when you had it and now your gonna know so I dont wanna see  
you crying when I finally let you go

Ohh

Your begging me for answers I dont know what to say anymore and ooh you want to many chances so just go  
cuz im showing you the door

And I dont wanna see you crying when I finally let you go iv given what you wanted you will thank me down  
the road you couldnt see what you had when you had it and now your gonna know and I dont wanna see you  
crying when I finally let you go

dont wanna see you crying when I finally let you go dont wanna see you crying when I finally let you go

You could see what you had when you had it and now ..your ..gonna...know
