Already There

George Byrne

Already There

George Byrne

And I call you
And youâ€™ll pick up
And then
Nothing more to say
Until
We find
A way

And Iâ€™ll sell my lies
While you fall in line
But you notice
Things arenâ€™t quite right

And they say your heart
Is where you lifted us
And you know it
You know it to be true

So if I called you
Would you pick up
And let me say what I need to say
Or leave here
And let it drift away

And itâ€™s getting late
For goodnessâ€™s sake
And getting older
Let it go

But if I saw you
Would you look up
Would there be nothing left to say
But in a strange way
Iâ€™m already there
