

# Lil' Apartment

## Timbaland

Let's go.

We hustle in a lil old apartment, with all the windows blacked out

I'd put it on the 'hood if you cost me

I'm a have to pull the straps out

You don't know nothin about me

You just been running your mouth

Instead of telling hoes when you see me, you gonna take me out

I'm a real nigga, come and give me hope

I'm a real nigga, come and give me hope

I'm a real nigga, come and give me hope

I'm a real nigga, come and give me hope

Hey, you old pussy-assed frontin' and snitchin'-assed nigga

Ran up on you 'bercrome and put a Barrett on your temple

Got a sawed up and opened fire with me nigga

Ready to get a crack and come and ride with me nigga

I'll put some change on your head

Get it nigga they kill you while you layin' in the bed

Hey we can bring this on the floor

Get you sleepin' then do the same thing to your whore

Got a chip on my shoulder, it's getting heavy as hell

All the nigga had to do was pay for my meal

We used to be down as hell

Snitchin'-ass nigga sent me to the county jail

You shouldna lied to me dog, I would rather kill and go down and die for my dog

And I'm a right for my niggas

They 'duce an attitude and pay atten

We hustle in a lil old apartment, with all the windows blacked out

I'd put it on the 'hood if you cost me

I'm a have to pull the straps out

You don't know nothin about me

You just been running your mouth

Instead of telling hoes when you see me, you gonna take me out

I'm a real nigga, come and give me hope

I'm a real nigga, come and give me hope

I'm a real nigga, come and give me hope

I'm a real nigga, come and give me hope

Hey scary-ass, fake-ass, sucker-ass, shithole

I got plans, you wonder, find your ass in the river

Bobba you're going fat in the middle

Especially when your ass's being hunted by a killer  
Yeh homie you know what they say, i'm gonna catch your mo'fo's ass one of these days  
I'm gonna let loose with one of these K's  
Your momma or your bigger momma's momma ain't safe  
I did some shoppin around about a couple of days  
Now I'm lookin for yo regular ass, esplanade  
I wish I coulda do it back in the days, but you was a bitch-ass nigga the whole-ass ways

You shouldna hated on me dog  
If I call it talkin, you should be sayin it to me dog  
I keep in so much debt, you look up on me on the hill is where you find me yet  
We hustle in a lil old apartment, with all the windows blacked out  
I'd put it on the 'hood if you cost me  
I'm a have to pull the straps out  
You don't know nothin about me  
You just been running your mouth  
Instead of telling hoes when you see me, you gonna take me out  
I'm a real nigga, come and give me hope  
I'm a real nigga, come and give me hope  
I'm a real nigga, come and give me hope  
I'm a real nigga, come and give me hope  
Pussy-assed sucker-assed broad-assed nigga  
Runnin' your mouth cos you're a broad-assed nigga  
I look in your face and see hokay  
Niggas it's hard to shake, they stay in your wake  
But I move with smooth pace  
Give a ruck about a case, put a black in your face  
Until my mission complete I don't cease  
How the fuck you gonna shit on my name in these streets,  
Supplied the hustle, I'll put the muscle  
Got niggas on standby and they ready to touch  
They ain't fuckin with you, bitch, straight to the face  
No shit's left on the scene, just no body to trace  
After you checkin in, they given the win  
How long you got left, it really depends  
You don't know which way to go, and you're struck outta breath  
That's what motherfucker's get for not checking their shit  
We hustle in a lil old apartment, with all the windows blacked out  
I'd put it on the 'hood if you cost me  
I'm a have to pull the straps out  
You don't know nothin about me  
You just been running your mouth  
Instead of telling hoes when you see me, you gonna take me out  
I'm a real nigga, come and give me hope  
I'm a real nigga, come and give me hope

I'm a real nigga, come and give me hope

I'm a real nigga, come and give me hope

Yo, it's over
