

F.T.W.

Breedlove & Chew Fu

People everywhere fighting with each other
Drama in the air I thought you were my brother
Screaming in the streets crying in the rain. People talking shit fateful to discover
Throw another fit I thought you my lover
Don't it hurt to hate don't you feel the pain Trying to keep it real truth should never hurt you
Express the way you feel thought your friends desert you
You've got my back your holding a knife So tonight im gonna dance live this life I got while I still got the chance
So tonight im gonna say listen to the music forget everything
So tonight im gonna dance live this life I got while I still got the chance
So tonight im gonna say listen to the music forget everything
Fuck the world and dance (Dance and Love Each Other)
Fuck the world and Sing (Sing and love one another) Belligerent and loud maliciously misleading
You picker this dark cloud suspiciously deceiving
Fighting the night demons in the dark
You cast some shade you pour some liquor
You're getting played you sit and bicker
This scene is on repeat we all play our parts So tonight I'm gonna dance live this life I got while I still got the
chance
So tonight I'm gonna say listen to the music forget everything
So tonight I'm gonna dance live this life I got while I still got the chance
So tonight I'm gonna say listen to the music forget everything Fuck the world and dance (Dance and Love Each
Other)
Fuck the world and Sing (Sing and love one another)
Fuck the world and dance (Dance and Love Each Other)
Fuck the world and Sing (Sing and love one another)
So tonight I'm gonna dance live this life I got while I still got the chance
So tonight I'm gonna say listen to the music forget everything
So tonight I'm gonna dance live this life I got while I still got the chance
So tonight I'm gonna say listen to the music forget everything Dance and love each other
Dance and love each other
