

Home For The Holidays

Houston

It's here, the time of year we get to celebrate
All together once again and it doesn't matter
How far wherever we are we always find a way
To get back to all the family and friends I'm gonna be home for the holidays
To the place I know, it's my heart and soul
I'm coming home and I can't wait
Yeah, I'm gonna be home for the holidays Yeah, my hometown, my friends around
It's what I really missed, yeah
And all the good times that we shared
And even though I know I've been gone for way too long
Coming back is the best
I'm getting close I'm almost there I'm gonna be home for the holidays
To the place I know, it's my heart and soul
I'm coming home and I can't wait
Yeah, I'm gonna be home for the holidays To the place that I remember always and forever in my heart
We can celebrate from November to December
Yes, I'm gonna be home, I'm gonna be
I'm gonna be home for the year
Yeah, I'm gonna be home, I'm gonna be there soon as I'm gonna be home for the holidays
To the place I know it's my heart and soul
I'm coming home and I can't wait
Yeah, I'm gonna be home for the holidays
For the holidays Just where I belong and I've been gone too long
I'm coming home and I can't wait
Yeah, I'm gonna be home, I'm gonna be
Yes, I'm gonna be home for the holidays
