

# It's Time (feat. Deadly Venoms)

## Kurupt

Full moon's light is calling me  
My kingdom lies within  
The mystic soul and lion's heart  
Brought by the talismanThe ecstasy of battle takes me  
Where the falcons fly  
Immortal youth was granted me  
I will never dieBorn of black wind, fire and steel  
Born of black wind, fire and steel  
Born to teach them all to heel  
Born of black wind, fire and steelPounded by the hammers  
Of the giants of the world  
I can see in darkness  
I'm the overlordSingle combat I await  
My shadow brings them fear  
The spikes upon my chariot  
Will grind them when they're nearBorn of black wind, fire and steel  
Born of black wind, fire and steel  
Born to teach them all to heel  
Born of black wind, fire and steelI am an outcast  
On the path of no return  
Punisher and swordsman  
I was born to burnBlack wind always follows  
Where my black horse rides  
Fire's in my soul  
Steel is on my sideBorn of black wind, fire and steel  
Born of black wind, fire and steel  
Born to teach them all to heel  
Born of black wind, fire and steelI am an outcast  
On the path of no return  
Punisher and swordsman  
I was born to burnBlack wind always follows  
Where my black horse rides  
Fire's in my soul  
Steel is on my sideBorn of black wind, fire and steel  
Born of black wind, fire and steel  
Born to teach them all to heel  
Black wind, fire and steelBlack wind, fire and steel  
Black wind, fire and steel  
Born to teach them all to heel

Black wind, fire and steelBorn of black wind, fire and steel  
Black wind, fire and steel  
Born to teach them all to heel  
Black wind, fire and steelBlack wind, fire and steel  
Black wind, fire and steel  
Born to teach them all to heel  
Born of black wind, fire and steel
